

AMENDMENT

IN THE CLAIM

Please cancel Claims 1, 3 and 4, without prejudice or disclaimer of the subject matter thereof, and amend the original claim 2 as the following and add new claims 5 and 6 as the following LIST OF CLAIMS. The added new claim 5 has features of the original claim 3, but now it is dependent to the amendment claim 2 and the added new claim 6 has features of the original claim 4, but now it is dependent to the amendment claim 2. Thereby, it is assured that the new claims are based on the original claims and thus no new matter is added. The relations of the new claim with respect to the original claims are shown in the following Remark by which Examiner can understand the structure of new claims with respect to the original claims clearly.

LIST OF CLAIMS

Claim 1 (Cancelled)

Claim 2 (Currently amended) A nail box of a nail driver comprising:

a main casing; a lower side of the main casing being firmly secured with a first magnetic element;

a sub-casing pivotally installed to the main casing as so to form a casing; a lower side of the sub-casing being formed with an inclined resisting portion;

a receiving unit for receiving a plurality of nails; a lower side of the receiving unit being firmly secured with a second magnetic element; one lateral side of a lower portion of the receiving unit being formed with a push portion corresponding to the inclined resisting portion of the sub-casing;

wherein the receiving unit is installed below the main casing and received in the casing; the same polarity of magnetic elements of the receiving unit and the main casing are oppositely arranged so as to generate an impulsive force which are used for separating the main casing and the receiving unit ~~sub-casing~~; the inclined resisting portion and the push portion serves to retain the receiving unit in the casing; ±

wherein a lower side of the receiving unit has an inclined portion for preventing the inclined portion from over-turning.

Claim 5 (New) The nail box of a nail driver as claimed in claim 2 ±, wherein an adjustable receiving disk is installed in the receiving unit for installing nails of different sizes.

Claim 6 (New) The nail box of a nail driver as claimed in claim 2 ±, wherein at least two scale lines are installed at an inner side of the main casing as a reference in adjustment of the receiving disk.
